European funding programmes in human infectious diseases

Research grants and awards from ESCMID

Scope: The goal of the [ESCMID research grants and awards](#)^[1] is to help young and excellent investigators to pursue groundbreaking research in the fields of clinical microbiology and infectious diseases.

Who can apply: Young and senior scientists.

Contact: info@escmid.org^[2]

Research grants and fellowships from ISID

Scope: The goal of the [ISID Research Grants Program](#)^[3] is to support and foster the professional development of young investigators from resource-limited countries in the field of human infectious diseases research by helping them to acquire additional skills and data to help advance their careers. The purpose of the [SSI/ISID Fellowship Program](#)^[4] is to support infectious disease physicians and scientists from developing and middle income countries through multidisciplinary clinical and laboratory training at select biomedical institutions in Switzerland.

Who can apply: Research grant: young investigators from resource-limited countries. Fellowship: citizens or permanent residents of developing countries or Eastern Europe.
